SUMMARY

10+ years combining marketing, design and UX/UI to help people decide. I build websites, landing pages, ad creatives and copy that drive action, from strategy to launch. I read the data, fix what holds conversion back and work closely with growth, media, tech and sales teams.

Goal: a full-time role in conversion-focused marketing, combining web design, ad creatives, copywriting and UX/UI. Open to employee (CLT) or contractor (PJ) arrangements.

SKILLS & TOOLS

Web design & CRO: information architecture, value proposition, CTAs, forms, A/B testing, CMS, design systems and responsive design.

UX/UI: research and journeys, wireframes, prototypes, UI design, usability and digital products. Copy & creatives: copywriting, headlines and CTAs, microcopy, scripts, ad creatives and social media content.

Tools: Figma, Webflow, Relume, Vercel, Supabase and Adobe Suite. Data: GA4, Amplitude, HubSpot, RD Station and Sheets. Applied AI for prototypes, creatives, variations and faster execution: Claude, Claude Code, ChatGPT, Lovable and Higgsfield.
